Adult Services

Outpatient Services

An Overview

The Adult Services Outpatient Program is an integral part of the continuum of care offered by DISC Village, Inc. Specializing in the treatment of substance abuse and/or other behavioral health disorders, we offer comprehensive outpatient and case management services to concerned individuals and families.

Admissions

Admission is voluntary for adults seeking treatment for substance abuse and other co-occurring behavioral health issues such as mental health issues. During the initial consultation session, an evidence-based assessment of the individual's and family's needs and suitability for outpatient treatment is determined.

The consultation is ***confidential*** and without obligation to enter the program. Should an individual be considered inappropriate for the outpatient component, a referral to another program or service will be provided.

Services

Outpatient services are provided by trained professionals experienced in assessment, diagnosis, and treatment of individuals and their families with substance abuse and/or other behavioral health disorders. We are committed to prevention, intervention, quality treatment and aftercare services directed toward long-term recovery. *Free HIV testing and education is also available.*

Individual Counseling

Intensive one-on-one counseling based on a program of complete abstinence. Family members are encouraged to participate with the individual in recovery. Significant others may also attend individual counseling with an adult outpatient counselor.

Group Counseling

Specialty groups are offered for adults and their families including:

- Intervention Group Counseling
- Outpatient Group Counseling
- Intensive Outpatient (IOP) Group and Individual Counseling

Case Management

Case management is a significant part of all treatment offered. Referrals may be made to other community agencies to meet legal, medical, psychiatric, educational, spiritual, vocational or other service needs.

Accreditation & Licensure

All service components are fully licensed and accredited.

- Licensed by the State of Florida
- Accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF)

Quality Assurance

Continual internal and external review of all services to insure the highest standard of services.

Fees for Services

DISC Village, Inc. is a private, non-profit agency. Counseling fees are based on a sliding scale. Urinalysis testing is a flat rate of \$22 per test.

Confidentiality

It is imperative that confidentiality be observed for therapeutic progress to occur. Strict adherence to all Federal as well as Florida Statutes is maintained.

E-Therapy

The Adult Outpatient Program also provides confidential online counseling services to those in the community that may have difficulty accessing traditional services. The E-Services component can provide services to military personnel and their family members, college students, veterans, elderly, those with transportation issues, those with disabilities and consumers in outlying counties with access to the internet. E-therapy provides Screening and Assessment, Individual Counseling, Group Counseling and Case management.
